

175

$P = \rho gh$ より、(圧力の式)

$$\rho = 13600 \text{ kg/m}^3, \quad g = 9.8 \text{ m/s}^2, \quad h = 0.760 \text{ m}$$

を代入して、

$$\begin{aligned} P &= 13600 \cdot 9.8 \cdot 0.760 \\ &= 1.013 \times 10^5 \text{ Pa} \end{aligned}$$
